EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ms. Blank on March 17, 2004.

The application has been amended as follows: In line 3 of claim 31, "PEO-PPO" has been replaced with **---polyethylene oxide-polypropylene---**, which is support by the disclosure at page 10, line 6.

In line 6 of page 1 of the specification, the blank line (_____) has been replaced with **---10/028,130---** and "(Docket 82966)" has been deleted.

In line 8 of page 1 of the specification, the blank line (_____) has been replaced with **---10/028,129---** and "(Docket 83466)" has been deleted.

The following is an examiner's statement of reasons for allowance: A method of forming porous particles utilizing emulsified crosslinking of an unsaturated polyester in the presence of ethylenically unsaturated monomers is known in the art as evidenced by the art of the record. However, the utilization of a water immiscible organic solvent, which must be removed in the end, presents concern on environmental and economical aspects would not be obvious to one skilled in the art.
